

Azure Storage Redundancy – LRS (Locally Redundant Storage)

Locally Redundant Storage (LRS)

- ✓ Replicates your data three times within a single data center in the primary region
- ✓ Provides at least 11 nines of durability (99.999999999%) over a year
- ✓ Lowest-cost redundancy option and offers the least durability
- ✓ Protects data against server rack and drive failures but not against disaster that destroy Datacenter
- ✓ Microsoft recommends ZRS, GRS,(GZRS) ✓

Primary region
